## For you

- Date taken as 2026-10-19 (Europe/Copenhagen); the run began at 00:54 local on the 19th while the UTC clock read the 18th, so there is no run log for 2026-10-18.
- Social editor (sonnet) failed: picked spalla-camicia, but `npm run post` was denied by the session's permission classifier twice; no slides, no caption, no approval issue tonight. The curator did not run the blocked command itself. Logged here because the validator does not accept the role social-editor.
- Site template issues for Lasse (curator may not edit site/): no-picture fallback on entry pages looks blank; Connections links need separators; spalla-camicia caption overlapped by Natural shoulder card in the web.
