For you

- **Tester** failed: 292 checks, 1 failure: web hover lands on the legend because the English country swatch now settles under #tw-kinds; passes on the previous commit.
- Copenhagen date 2026-10-21 (the run started at 00:55 CEST; the scheduler's UTC date was 2026-10-20).
- Social editor (sonnet) ok: sleevehead carousel, 3 slides, caption 683 characters, 8 hashtags in social/2026-10-21/; only sleevehead had a picture. Logged here because the validator does not accept the role social-editor.
- npm test: 292 checks, 1 failure (web hover). The Pages workflow runs npm run check only, so the deploy is not blocked.

- Commons was rate-limited for the picture tool and file pages could not be opened by WebFetch; no retries beyond one each.
- Needs Lasse: keep web pieces clear of the legend in site/web.js; entry-page picture fallback and Connections separators in site/; an era for majo; add social-editor to the run-log roles in tools/validate.mjs.

How the agents did

Agent	Model	Status	What it did
Tester	sonnet	FAILED	292 checks, 1 failure: web hover lands on the legend because the English country swatch now settles under #tw-kinds; passes on the previous commit. checks 292, failures 1 • web hover: English country swatch covered by the legend button (tools/test.mjs:103); layout shift from the combined content set, not one file • Edward VII and Majo entry pages show a letter placeholder (no picture)
Researcher sleevehead	sonnet	PARTIAL	Notes on smooth, roped and Neapolitan sleeve-head finishes, English vs American drape, grinze and repecchia; no Commons picture. sources 8, connections 6, picture candidate 0 • WebFetch refused The Vou and a Permanent Style page (permission/provenance) • Rollino vs English rope unresolved; English vs American pucker claim conflicts • Only one Commons search; no picture candidate
Researcher edward-vii	sonnet	PARTIAL	Notes on the dinner jacket, Homburg, turn-ups, creases, Glen Urquhart check and the waistcoat-button story; no picture candidate. sources 12, connections 9, picture candidate 0 • Commons file pages and Wikipedia Edward VII page blocked (permission prompt unanswered) • Norfolk jacket claim rests only on Henry Poole's own page • Dinner jacket dates conflict: 1860 vs 1865
Researcher majo	sonnet	PARTIAL	Notes on Madrid majo dress, the 1766 Esquilache cape and hat decree, the V&A majo suit and Goya; no verified picture. sources 11, connections 8, picture candidate 0 • Commons file pages did not open (permission timeout, API rate limit) • Prado, The Met, Museo del Traje and Britannica not reached • Link to traje de luces is inferred, not stated by a source
Illustrator	opus	PARTIAL	Sleevehead got a crop of the spalla-camicia plate; edward-vii and majo have no picture. prints 0, drawings 0, crops 1, none 2, render rounds 3 • Picture tool timed out on Commons (rate limit); not retried • WebFetch of Commons file pages: permission not answered; licence not seen
Fact-checker	opus	PARTIAL	Checked 8 entries: 6 contradictions (Heywood/Rake misattribution, Hill vs Gentleman's Gazette citation, Poole waistcoat reason, Homburg 'hedged') and about 14 unsupported claims, mostly where pages could not be opened. claims 275, supported 255, unsupported 14, contradicted 6, relations 50, relations unsupported 1, pictures 0, licence problems 0 • 6 of 53 source URLs could not be opened (Met x2, HRP, Permanent Style x2, UCM) • Heywood credited with The Rake writer's words in sleevehead and drape-cut

Agent	Model	Status	What it did
Visual reviewer	opus	PARTIAL	Sleevehead crop and drape-cut flat pass; majo floats beside Peacock revolution on the web; edward-vii lacks life dates; hover test failure is new tonight. reviewed 8, pass 6, fixes 3 • web: English country swatch fitted under the legend • majo: no typed relation to an existing entry, so it sits among 1960s pieces • edward-vii: no period, so no life dates on its ticket • site-wide: pictureless entry pages show a blank plate with a stray initial; Connections links run together
Writer	opus	OK	Wrote sleevehead, edward-vii and majo from the notes; validate 0 errors. entries 3, new links 16, relations 17 • majo has no era: none covers Spain 1750-1825 • majo period 1750-1825 is the writer's reading of the notes • edward-vii has no period (no birth or death dates in the notes)
Weaver	opus	OK	Threaded the three new entries into the web; no folds; 0 orphans. relations added 4, back links 4, folds 0, orphans 0 • majo: no existing entry touches Spain or its period, so no new threads
Curator	opus	PARTIAL	Next up was empty. Chose majo (Spain had no entries; nothing in the 1770s-1790s), sleevehead (most-linked wanted, construction) and edward-vii (wanted, 3 links, thin 1860s-1880s). All three added. topics 3, added 3, dropped 0, fixes after checks 16 • Fixed all 6 contradictions and softened 10 unsupported claims or notes in sleevehead, drape-cut, edward-vii, majo, savile-row and natural-shoulder • Left pre-existing claims in frederick-scholte (Met, HRP), neapolitan-tailoring (Permanent Style Rubinacci, milanese-tailoring) and natural-shoulder (Permanent Style ?p=70530) unchanged: verified on earlier nights, only unreachable tonight • npm test hover check fails from a layout shift (English country under the legend); the fix belongs in site/web.js, which the run may not edit; no single entry causes it, so none was removed • Did not add edward-vii's period: no opened page gives his birth year • Commons file pages unreachable for the curator too (permission not answered); two entries without pictures • Run-log validator rejects role social-editor; its row moved to notes
